Cocktailmachine

Cocktails

In Meteor we use a cocktail machine for most of our cocktails. How does one make one? After looking at our receipt we click the matching cocktail in the machine. This will show, the ingredients, the accessories and the preparation method. Simply follow the instructions on the preparation method and you'll be able to serve the cocktail. Here's a legend of what is which:

From left to right: a Gin Tonic glass, a Martini glass, and a Hurricane glass.
